Submission Checklist

NeuroSonic project · Allwin Raj · Vellore Institute of Technology · 3 November 2026

Submission Package: Contents and Mapping

Project: **NeuroSonic** (base paper: WOAD, Gao et al., *Nature Communications* 2025). Student: Allwin Raj. Prepared 3 November 2026. All files are in `F:\Projects\WOAD-Research\implementation\Assignment_Submission\`.

Required item	File	Pages	Notes
Review 1 doc / DA1: survey and comparative analysis (IEEE 2-column, ≥ 7 pages)	`DA1_Review1_Survey_and_Comparative_Analysis.pdf`	9	domain; statistics; publications; patents; products; technology trends
Review 2 doc / DA2: base paper redo, gaps, proposed work (IEEE 2-column, ≥ 7 pages)	`DA2_Review2_Base_Paper_Reimplementation_Gaps_and_Proposed_Work.pdf`	7	re-implementation, evaluation, cons, 8 gaps, proposed work
Review 3 doc / DA3: implementation, architecture/methodology, results (IEEE 2-column, ≥ 7 pages)	`DA3_Review3_Implementation_Architecture_and_Results.pdf`	8	architecture, methods, all measured results, limitations
Final consolidated project report (≥ 20 pages; one upload for DA1–DA3)	`Final_Consolidated_Project_Report.pdf`	53	cover and certificate templates (fill highlighted fields), all chapters, appendices
Lab 9: IPR IDF B draft	`Lab9_IPR_IDF_B_Draft.pdf`	7	transfer to the institute template if one is provided
Lab 10 / IEEE 2-column draft (≥ 14 pages)	`Lab10_IEEE_Two_Column_Paper_Draft.pdf`	20	full paper draft (also serves as "IEEE 2-column draft of minimum 7 pages")
Project demo: existing implementation vs proposed work (differentiation)	`Project_Demo_Existing_vs_Proposed.pdf`	2	A/B/C tables and the demonstration script
GitHub link (dataset, source code, other files); video link	`GitHub_Dataset_and_Video_Links.pdf`	3	**links still to be created and filled in**; what to upload and what never to upload; video shot list
Identification of Scopus-indexed venues (Q1–Q4) / book chapter / IPR	`Publication_Venue_Identification.pdf`	3	candidate venues, quartiles as checked, plan

To complete before submission

- Fill the highlighted fields in the report's cover, certificate and declaration, and in the IDF: register number, course, programme, guide, school, dates, contribution percentages.
- Confirm the author line ("Allwin Raj, Vellore Institute of Technology, Vellore") used in all papers.
- Create the GitHub repository and record the video (or decide to keep them private until IPR advice), then enter both links.
- Physical iPhone tests are **not** part of these documents' results; every document says so.

How the documents were produced

All documents are generated from HTML sources in `_build/` (`python build.py`, headless Chrome to PDF). New figures come from `_build/make_figures.py`, which reads the project's result files; the other figures come from `publication/figures/`. Every cited source was checked on 3 November 2026; every measured number comes from files in `implementation/outputs/`.
